In-School Program Consent Form

October 19, 2023

Dear Parents/Guardians:

On Thursday, November 2nd, 2023 Division 15 we will have **Science Made Fun** come to our school. Students will have the opportunity to find out what really matters as we explore the properties of solids, liquids, and gases, discover what happens when solids and liquids interact during chemical reactions and in our density bottles. Observe for ourselves that gases take up space!

The cost for this program is \$11.00 per student. Please pay with exact cash, or cheques can be made payable to Devon Gardens Elementary.

Sincerely,

Mme Sutter
